

# Owl Ridge Wine Services

## Standard Bottling Package Guidelines

### Labels:

- Front and back labels on the same roll preferred; dual web rolls are acceptable.
- 11" maximum diameter; 3" core; rewind #4 or 'outside left'/'left first' positioning
- Minimum 1/8" spacing between labels
- Please supply at least 12.3 labels per case or 13.3 if you are applying a label to each case
- Laminated, metallic, irregularly-shaped or very large labels increase the risk of poor application, especially on unevenly-sided bottles. Please check with Owl Ridge.
- Please provide a press proof to Owl Ridge.

### Glass:

- Standard cork finish and Stelvin-compatible screwcap bottles are acceptable.
- Please provide samples to Owl Ridge before ordering glass
- Tapered glass should have conforming labels
- Please supply at least fifteen extra cases of glass
- Formats other than 750mL bottles are possible. Please discuss with Owl Ridge.

### Capsules:

- We accommodate tin, 'polylaminated' and hybrid 'Almost Tin'
- Please supply 12.2 capsules per case
- Please verify capsules fit on bottles before ordering.

### Closures:

- Natural, synthetic and micro-agglomerate corks up to 49mm in length can be accommodated.
- Please order at least 12.2 closures per case.
- Screwcaps must be Stelvin-compatible

Please ensure all packaging is delivered to Owl Ridge at least three days before bottling and please confirm ship dates and times with Owl Ridge at least 48 hours in advance. Delivery and pickup hours are 8.00 AM- 3.30 PM, Monday to Friday. Please provide a contact name and number for all trucking companies. Please ensure all deliveries clearly state the destination winery name on the packing slip. No bottles/cases are to be removed from Owl Ridge without a signed Bill of Lading.
